Education

Central University Of Haryana **Nov. 2022 – May 2024**
Master Of Computer Application *CGPA: 7/10*

Magadh Mahila College **July 2015 – Feb 2019**
BCA *Percentage- 77.17*

Technical Skills

Languages: C, C++, HTML/CSS, JavaScript, TypeScript, SQL
Framework & Library: React.js, Next.js, Redux Toolkit, Node.js, Express.js, Tailwind CSS
Database: MySQL, MongoDB,
Developer Tools: Git, GitHub, VS Code, Vercel, Render, Postman
Core Competencies: RESTful APIs, JWT Authentication, WebSockets (Socket.io), Payment Gateway Integration (PayU), SEO Optimization, Data Structures Algorithms (DSA), Nodemailer

Experience

All India Diploma Engineers And Officials Association (AIDEOA) **Oct.2024 - April 2025**
Full Stack Developer Intern

- Built responsive UIs with React and designed RESTful APIs using Node.js Express.js for a semi-government portal.
- Integrated **Payment Gateway (PayU)** with secure transaction flow and refund handling.
- Improved **SEO** using structured metadata and optimized load time.
- Collaborated in an agile team, managing version control, testing, and documentation

Projects

RoomieOS | *Full-Stack Web Application* **May 2026 – June 2026**

- Developed a centralized household management dashboard that enables roommates to organize shared apartments, track individual chores, and split living expenses transparently.
- Built a dynamic apartment workspace layout featuring a secure room invitation system, a scheduler for rotating household tasks, and an automated report card to track roommate metrics and chore completion rates.
- Engineered a low-latency real-time synchronization layer using WebSockets (socket.io) to instantly reflect dashboard updates, chore status toggles, and balance shifts across all connected room profiles without page refreshes.
- Implemented secure authentication workflows utilizing cookie-based JSON Web Tokens (JWT) paired with targeted API rate-limiting middleware to protect user credentials and eliminate brute-force entry vulnerabilities.
- Orchestrated a production split-cloud architecture, deploying the client-side Single Page Application (SPA) on Vercel with dedicated routing configurations, and containerizing the Express/MongoDB API service on Render with optimized cross-origin (CORS) security policies.
- Technologies Used: React.js, TypeScript, Node.js, Express.js, MongoDB, WebSockets, Vercel, Render.

ChitChat App | *Real-Time Chat Application* **June 2024 – July 2024**

- Developed a real-time messaging platform using React.js and WebSockets, supporting instant messaging with notifications.
- Implemented features like user search, chat timestamps, and notification sounds.
- Handled authentication, session management, and data modeling using Express.js, JWT,and Mongoose.

Certifications

- HackerRank React(Basic) Certificate
- HackerRank JavaScript Course
- HackerRank Certificate of SQL using MySQL
- Frontend Developer (React) Certificate
- HackerRank Software Engineer Intern Certificate

Achievement

- Solved 400+ Coding problems on various platforms like GeeksforGeeks, HackerRank, Leetcode and Codingninja
- Secured AIR :5124 in codingninjas Codekaze Contest.
- College Rank Under 45 on GeeksForGeeks
